

Reviving a Legacy

The nursery: How it was (above left) | Refurbishment in progress (above)

As promised, YACnCAY and BIAO Foundations mission is to deliver on our aims and objectives but most importantly, demonstrate transparency in what we do, which includes the funds we raise and how it is spent.

Our first issue was printed and distributed December 2019, which showed our YACnCAY fundraising project in collaboration with our sister charity Barrister Isaac Abiodun Onibokun Foundation, our registered charity in Nigeria.

We explained why the project was needed, briefly, we conducted YACnCAYs first charity walk from King's College London, Guys Campus to the London Eye. This was in order to raise funds to renovate a classroom in Nigeria. We showed pictures of the classroom at various stages including its completion, it was important

Barrister (Prince) Isaac Abiodun Onibokun, 1931-2003

to list the helpers that contributed to the project. This will be the format of our newsletters moving forward.

The aim of this issue is to bring awareness to our first Orphanage/Children's home and Vocational Skills Centre. We are praying for more helpers to raise more funds to complete the project by September 2020, which will mark the 10 year anniversary of YACnCAY. This

means a lot to the Founder & CEO of YACnCAY Dr. Toyin as it has been a dream of hers to run an orphanage. For her birthday in lockdown, beginning of May, she requested people donate to the orphanage, and the last registered amount collected was £700.00, majority of who were the youth. She has been blown away with the generosity at this testing time! God will replenish every pocket in Jesus name, Amen.

Pictures of the refurbishment (above both pages)

Barrister Isaac Abiodun Onibokun Foundation (<http://baiofoundation.org>) Founder and CEO Mr. Adesina Onibokun, was registered 14th March 2018, in memory of the Dr. Toyin's husband's Father. He was a prominent brilliant Lawyer and Politician who used his time and money to help humanity. Briefly, the vision and mission of this foundation is to provide funds, shelter, education and vocational skills tailored to the needs of the local economy. Supporting young people, irrespective of gender, cultural background, disability or religion.

To date we have successfully raised funds through the justgiving page <https://www.justgiving.com/>

crowdfunding/adesina-onibokun also donations to YACnCAY charity, and personal donations, see financial contributors at the end. With YOU our helpers we have been able to start refurbishing an old abandoned nursery school of 10 years. We could not have started without your help, but still more helpers are needed to keep the work going to complete the work, September 2020.

We are also seeking collaborators, helpers, organisations etc to help run the children's home/orphanage.

We are happy to summarise the income and expenditure to date, the crowdfunding page has

been set at £10,000, but to date we have raised £5,000.00 including approximately £2,500 raised by YACnCAY and personal funds, and additional

resources from Nigeria is approximately £2,500 - £3000. We are seeking an additional £5,000. Thank you one and thank you all!
